Border/Immigration	News 4 @ 10	7/7/11	10:04:25 to 10:06:10		Homeland Security Director Janet Napolitano came to Arizona's border to unveil the federal government's newest plan to secure the border against drugs and smuggling.
Border/Immigration	News 4 @ 10	7/11/11	10:02:55 to 10:05:49		The new, reportedly improved section of fencing along our border with Mexico has already reportedly been hacked. The new style fence is known as Bollard style fencing. It is taller and has a deeper base to prevent tunneling allowing agents to see into Mexico. Apparently, this fence was no match to whoever is behind the breach. A resident near the border had high hopes for this higher border fence but he snapped some pictures of the gaping hole in the wall which is a stone's throw from his land. We tried to get comment from the Border Patrol but by email, they said they couldn't confirm the breach. The resident did advise he was very happy with how fast they repaired the hole in the wall.
Border/Immigration	News 4 @ Noon	7/11/11	12:00:35 to 12:02:15		The Mexican Interior Re-Patriation" program took flight, flying border crossers back to Mexico. More than 1,800 illegal border crossers were found dead in Arizona's desert in the last 10 years. This program was designed in 2004 between the United States and Mexico. This year's program is scheduled to run until September 28th. The program involves two flights a day from Tucson to Mexico City.
Border/Immigration	News 4 @ 6	7/20/11	6:01:53 to 6:03:53		State lawmakers are getting impatient with the Federal Government. They said the Feds are dragging their feet when it comes to border security so the state is asking for help from you. They've set up a new website, <a href="http://www.borderfence.com">www.borderfence.com</a> , to accept donations to pay for more fencing along the border. The new law, SB1406, allows the state to accept donations on the website. The goal is to raise \$50 million dollars, and put pressure on the Federal Government to secure the border. The website raised more than \$25,000 within the first few hours it went on-line. One state lawmaker has acknowledged that \$50 million won't be nearly enough money to secure the entire Arizona-Mexico border but he said if they can get \$50 million, it would be a fabulous start.
Border/Immigration	News 4 @ 5	7/25/11	4:59:55 to 5:01:35		Who is to blame for illegal immigrants dying in Arizona's desert? Immigrant right groups blame the Border Patrol. On 7/25, they wrapped up a news conference with a new assault on the agency's policies.

Community	News 4 @ 10	8/3/11	10:13:27 to 10:15:29		In this hyped-up year of the Internet, smart phones and tablets, many consider the phone book old school. And this, could have a lot to do with the disappearance of the Yellow Pages. Even though less people are using the Big Yellow Book these days, it still shows up on door steps, but since less are using it, Dex has created a website where people can opt out, and should you choose to do so, the phone book will never show up on your door step again. And, despite a 20-year recycling push by the city and county, phone books still end up in the landfill. They take longer to decompose because of our dry climate.
Community	News 4 @ 5	8/4/11	5:02:54 to 5:05:09		It bugs everybody. You call your utility and get put on hold for what seems like an eternity. It happens at Tucson Water, and News 4 went down there to find out. The new head of Tucson Water said outrageously long waits have been a problem for 3-years. Now, he's trying to speed things up by filling 9 vacancies. They are also reassigning 7 positions to the customer service piece of how to respond to calls. And, they have a new triage software system going into place. All this, to reduce the wait time for customers. One councilman wants to see 5 to 10 minutes wait times by October. The Water Director said he won't be satisfied until the hold time is just seconds.

Consumer	News 4 @ 10	8/31/11	10:11:17 to 10:13:40		You've seen the pitches in your mail, your email, and maybe you've even gotten a robo call asking you to buy a pricey extended warranty on your car. These pitches often target owners of slightly older cars whose initial warranty from the manufacturer has expired. Most of the time, it's not the car maker but a third party offering you these extended warranties. And while some of these companies are legitimate, others are not, and one young woman from Tucson found out the hard way. Her car broke down and the company told her the warranty expired. The BBB of Southern Arizona has received multiple complaints regarding this company, U.S. Fidleis. The Tucson woman spent months calling to demand her money back, and she finally got it back. As for U.S. Fidleis, they declared bankruptcy in 2010, and this summer, it's owners were indicted for fraud, theft and unlawful merchandising.

Crime & Law Enforcement	News 4 @ 10	7/20/11	10:06:23 to 10:08:07		Another twist to laws on the books? If you get busted for just about anything, you're going to be paying more for it. A new law tacks on another \$13.00 to any fee you're ordered to pay. In Tucson, more than \$250,000 charges are handed out every year. \$16,000 of those in Pima County. And add \$13.00, and we're talking lots of additional revenue. Reps with the Tucson City Court said that if people refuse to pay, they would be rolling the dice and would only come back to bite them. For those who can't afford the fine, the city offers a payment plan.
Crime & Law Enforcement	News 4 @ 5	7/20/11	5:00:20 to 5:02:15		Slow down or switch lanes. It's a beefed up law that hit the books on 7/20. The old law applied only to police or emergency vehicles pulled over on the side of the road with flashing lights. On 7/20, the law expanded to include all vehicles parked on the side of the road as long as their warning lights are on. News 4 went to I-10 to see how drivers are responding to this new law.
Crime & Law Enforcement	News 4 @ 10	8/8/11	10:11:52 to 10:13:58		Speed cameras, we don't like them, but for the most part they do serve a purpose. Most of us slow down when we know they're up ahead. However, recently, pictures of two suspected thieves showed up on a speed camera, and they were driving a stolen vehicle. Three days later, same speed camera, same area, same girls were caught on the same speed camera. Deputies advised the public to call 911 or 88-crime if you recognize the women or stolen vehicle.

Crime & Law Enforcement	News 4 @ 5	8/8/11	5:12:13 to 5:13:39		School is back in session, and that means the Marana Police were out writing tickets in school zones. Patrol Officers were out in full force. School zone enforcement is something they take very seriously and they have zero tolerance approach in the school zones. So, remember to slow down, summer is over and school's back in session.
Crime & Law Enforcement	News 4 @ 5	8/16/11	5:02:00 to 5:04:43		For the 10th time in less than a year, vandals damaged a Pima County playground, and the county is offering a one thousand dollar reward for information. The tug boat, at the Star Valley Park, southwest of Valencia and South Camino Verde was damaged, torched. An estimated \$20,000 dollars. Back in June, someone set fire to the slide. According to county records, there have been 9 other incidents of graffiti, fire and destruction since October, an on-going problem. Pima County is offering a \$1,000 dollar reward for information leading to the arrest and conviction of whomever's doing this.
Crime & Law Enforcement	News 4 @ 5	8/17/11	5:11:14 to 5:13:08		As the price of copper rises, so does the risk-taking of copper wire thieves. The historic Rillito Racetrack, in Pima County, was hit. Cables were cut in dozens of electrical boxes. The Rillito Racetrack was our nation's first quarter horse track, and one of only two still operating in Arizona.
Crime & Law Enforcement	News 4 @ 4	8/18/11	4:14:28 to 4:15:59		A rash of mail thefts has Tucson's northwest side on alert. There have been about 12 victims since April and the Postal Inspector believes one man is behind it all, and this person has been arrested before on similar charges. There is a \$10,000 reward for any information leading to this man's arrest.
Crime & Law Enforcement	News 4 @ 10	8/22/11	10:02:03 to 10:04:38		About 70 times a week, cars blow past activated stops signs on school buses. And that is just one bus. This is why the Pima County Sheriff's Department has something called "Operations Bus." To prevent motorists who fails to stop for a school bus, the sheriff department is out ready to write tickets. One deputy rides the bus and every time someone doesn't stop, he radio's ahead to other deputies waiting to pull people over. Motorists forget and are not used to seeing school buses on the road so when school starts back up again, its nice to remind everyone that school is back in session. And by writing a few tickets, the Sheriff's Department hopes it is much more than just a nice little reminder. It's a \$500 dollar ticket for running through the school bus stop sign. The Sheriff's Department said to think about that next time you're in a big hurry.
Crime & Law Enforcement	News 4 @ 10	8/22/11	10:21:39 to 10:23:41		There are more Pima County residents than ever before, but fewer deputies on the streets, so when a low priority call comes in? Chances are, you'll wait for a deputy to respond. The Sheriff's Department knows and has a solution. And, that solution, is filling out a police report on-line at <a href="http://www.pimasheriff.org">www.pimasheriff.org</a> . By filing a police report on-line, you save time by not having to wait for a deputy, and leaving that deputy available to handle more important calls. So, when you have a non-life threatening emergency, just go on-line and file your police report.
Crime & Law Enforcement	News 4 @ 5	8/22/11	5:00:50 to 5:03:15		U of A officials said they have the largest freshman class ever this year, more than 7,300 students. Economy	News 4 @ 10	9/21/11	10:05:35 to 10:07:55		Baby bottoms may be the latest casualty of our down economy. Retail research showed a rise in sales of diaper rash creams but diaper sales are holding steady. That has some experts theorizing that families are trying to pinch pennies and stretch those dollars. Experts believe parents are not changing the diapers when they know their babies are wet, thinking it could last longer to save money. Experts said the brand of diapers doesn't really matter, so buying off-brand could help with your expenses. Also, cloth diaper users swear, they're super easy and relatively affordable... you just wash and reuse.

Districts have been hammered by budget cuts so Kristi's Kids teamed up with the Tucson Association of Realtors, and Walgreens to gather supplies for our kids. Last year we filled 4 busses. And this year, we hope to fill more.
Education	News 4 @ 5	7/13/11	5:01:13 to 5:03:38		For the most part, Pima County students are below the state average when it comes to AIMS scores. Pima County kids are below the state's average in math and reading. We tied the average in science but fared a little higher in writing. For the most part, the Pima County scores slightly improved from last year. This controversial exam will be history in a few years. In the Spring of 2015, a tougher national exam is expected to replace Arizona's Instrument to Measure Standards (AIMS). The nationwide uniform test would measure students' progress against new learning standards that indicate better preparedness for college. That said, Arizona will require that high school students pass the exam to get a diploma.
Education	News 4 @ Noon	7/19/11	12:05:05 to 12:06:55		New admissions requirements at Pima Community College might mean big changes for possible students. A high school graduate could be prevented from attending Pima Community College if he or she does not score high enough on certain tests. It would require new students to have a high school diploma or GED, and be able to pass an assessment test with 6th or 7th reading, writing and math grade skills. About 2,300 incoming students would be impacted if Pima requires students to have at least 6th grade skills. Puma's Governing Board is expected to vote on the proposal this Fall.

Education	News 4 @ 4	9/22/11	4:14:15 to 4:17:35	David Longoria, Pima Community College Board Member	Beginning next summer, Pima Community College will require that incoming students have a high school diploma, or GED and at least a 7th grade level proficiency in math, reading and writing. Right now, anyone over 16 years of age can take credit courses at Pima. This has stirred up a lot of controversy. David Longoria, a PCC Board Member, spoke about this issue.
Education	News 4 @ 10	9/27/11	10:22:25 to 10:24:25		The shaky economy has many people considering going back to college to become more competitive in the job market. While some choose to return to school, many workers are practically forced back to class to get the knowledge and skills to survive the modern workplace. Just make sure you don't put yourself in a deeper hole than you're already trying to dig out of. A financial counselor advised to make sure that in long run going into debt from going back to school will eventually pay off, and before you decide to return to college, or go for the first time, be realistic about your age, your ability to pay off your debt and your income potential. Remember, student loans never go away, even if you declare bankruptcy.
Education	News 4 @ 5	9/30/01	5:01:35 to 5:03:25		The number of Latinos in the U.S. is growing but the number of Latinos earning college degrees is shrinking. A new report from the college board showed fewer than 20 of Latinos are graduating from college, and that's half the national average. While there's room for improvement, the University of Arizona has 50% of Latino students graduating within 6 years. Also, the U of A said the number of graduates is expected to increase by May 2012.

Environment	News 4 @ 10	7/6/11	10:12:45 to 10:14:42		Arsenic has the ability to seep into our soil and our groundwater. Some of it's natural through rocks but also through the powdery residue left behind by some mining operations. Researchers at the University of Arizona have found a protective solution to the threat arsenic poses. They found a way to grow plants in contaminated soil. The plants form a protective cover cutting down on blowing arsenic dust and help keep the arsenic from seep down into groundwater. Scientists use compost and a process called phytostabilization to grow those plants. There are almost 350 private water companies that get their water from wells in Arizona. Most of them cleanse the water of arsenic before sending it to their customers. But in recent years, the state found 70 of these companies serving water with too high levels of arsenic.
Environment	News 4 @ 6	7/19/11	6:04:42 to 6:06:59		The Arizona Department of Game and Fish said the number of mountain lions in the area is much higher than normal which means you're more likely to come across one. Even though there's an increase, the number of attacks is still zero for this area and Game and Fish hope it stays that way. They said they are not trying to scare people from going out for a hike, just trying to make people aware that you might see one.

The public is invited to discover the importance of biodiversity by exploring the unique ecosystems found within Saguaro National Park. Lisa McDonough, from Saguaro National Park, spoke about how we can help.
Environment	News 4 @ 6	8/29/11	6:10:32 to 6:12:41		The monsoon means heat and humidity. And that can be dangerous for people who work outdoors. The City of Tucson had an employee in the ER for 3 days with his kidneys shutting down from heat and dehydration. This is why a federal agency is using technology to help keep workers safe. OSHA has developed a free Android application that not only calculates the heat index, how hot it actually feels outside mixed with humidity, but it can send out warnings to workers when it's time for a break. It is important to recognize that simply looking at the temperature may not be enough for employers to recognize how that's affecting their employees.
Environment	News 4 @ 4	8/30/11	4:37:34 to 4:41:29	Nature Photographer, Georgette Rosberg	If you've never been to Agua Caliente Park on the city's far northeast side, you have missed out on a true Tucson treat. The 101 acre park is home to a natural spring and pond, and plants, wildlife and insects you won't see anywhere else. Nature Photographer, Georgette Rosberg, drew inspiration from the park, and shared her photos at the Ranch House Art Gallery at Agua Caliente Park.

Safety	News 4 @ 6	7/14/11	6:09:20 to 6:11:33		Pima County had another child nearly drown. A 9-year old relying on a kickboard to stay afloat. Already, this year, 3 kids have died by drowning. This is why Kristi's Kids is pushing the "News4 Life Saver Program. News 4 spoke about you should not rely on those popular floaties and life vests to keep your children safe. A 3-year old almost drowned wearing arm floaties and a life vest. These items are not lifesaving tools. Simply put, there is no substitute for the ABC's of swim safety. Again, that's adult supervision, barricades and classes. Be a water watcher, have a pool fence and get the kids swim lessons.
Safety	News 4 @ 4	7/14/11	4:34:48 to 4:38:33	Mary Pekas, AAA	The latest numbers show that more than 500 kids have died since 1998 of hyperthermia from being trapped in a hot vehicle. Arizona ranks 4th in the nation with 23 deaths in that time period. Mary Pekas, from AAA, shared some life saving information to keep this from happening to you.
Safety	News 4 @ 6	7/21/11	6:09:34 to 6:11:23		So far this season, Pima County has recorded 10-water incidents involving kids. Three of those children drowned. It has been said repeatedly, that there's no substitute for the ABC's of swim safety, but there is another layer of protection. When you're at a swimming pool, you can use life vests as another layer of protection. It's not a guaranteed lifesaver but it can be a good tool. It's very critical that you following the instructions in the life vest to make sure it's the correct size for the child so it holds the child up and doesn't fall off.
